You never have to look far to find a Numatic vacuum keeping all industries clean ... right across the globe.

CleanCare vacuums continue to provide the latest in innovation across the full range. New “A” rated commercial energy saving vacuums provide “Greener” cleaning to all with improved cleaning performance.

In this catalogue you will find many new and exciting products using our latest research and technology coupled with an immense amount of good practical common sense. You will also see that our time tested professional designs have continued to develop and advance to meet the increasing demands of the worldwide cleaning industry.

Whichever CleanCare vacuum you choose, they all contain the same core values... Innovation, Quality and Value.
Henry HVR200
Henry HVR240

The original Henry 200, a trusted and familiar face on the outside with the latest innovation inside.

On-board tool storage and wand docking

Henry 240, everything you love about your Henry but just that little bit bigger.

- A Class
  Energy efficient, A rated.
- High Efficiency Motor
  Numatic high efficiency longlife motor.
- 10 Metre Cable
  Easy reach, 10 metre cable and rewind storage system.
- TriTex Filtration System
  Improves filtration, cleanliness and capacity.
- Wand Docking
  Convenient, on-board wand docking storage.
- HepaFlo
  Easy to change high efficiency HepaFlo bags. NVM-1CH pack of 10 PN: 604015
- Professional Accessory Set
  A tool for every job, full accessory kit AS1 with stainless steel tube set.
A choice of 3 professional sizes all saving 50% in energy… performing 20% better. Designed to work for a living and work hard.

- **High Efficiency Motor**
  Numatic high efficiency longlife motor.

- **10 Metre Cable**
  Easy reach, 10 metre cable.

- **TriTex Filtration System**
  Improves filtration, cleanliness and capacity.

- **Wand Docking**
  Convenient, on-board wand docking storage.

- **HepaFlo**
  Easy to change HepaFlo bags.

- **Professional Accessory Set**
  A tool for every job, full accessory kit AH0 with aluminium tube set.

- **A Class**
  Energy efficient, A rated.

### NuSave NRP420

How green is your clean? NuSave provides true Eco “A Plus” economy with 420W longlife performance.

- **High Efficiency Motor**
  Numatic high efficiency longlife motor.

- **12.5 Metre Cable**
  Professional specification cable rewind system.

- **TriTex Filtration System**
  Improves filtration, cleanliness and capacity.

- **On-board Accessory Storage**
  Tools are always to hand.

- **Wand Docking**
  Convenient, on-board wand docking and tool storage.

- **HepaFlo**
  Easy to change high efficiency HepaFlo bags.

- **Professional Accessory Set**
  A tool for every job, full accessory kit AS1 with stainless steel tube set.

- **A Class**
  Energy efficient, A rated.
When a vacuum cleaner is used six or more hours a day it is demanding on both the user and the machine, only the best will do!

- **High Efficiency Motor**
  Numatic high efficiency longlife motor.

- **12.5 Metre Cable**
  Professional specification cable rewind system.

- **TriTex Filtration System**
  Improves filtration, cleanliness and capacity.

- **Wand Docking**
  Convenient, on-board wand docking storage.

- **HepaFlo**
  Easy to change high efficiency HepaFlo bags.

- **Professional Accessory Set**
  A tool for every job, full accessory kit AS1 with stainless steel tube set.

- **A Class**
  Energy efficient, A rated.

---

An innovative vacuum design providing ease of handling and the total convenience of lift off storage for all the cleaning essentials.

- **12.5 Metre Cable**
  Professional specification cable rewind system.

- **TriTex Filtration System**
  Improves filtration, cleanliness and capacity.

- **Trolley Design**
  Lift off storage caddy with the option of adding a second. Telescopic handle for ease of transit and compact storage.

- **On the Move**
  Large rear wheels provide stability and ease of transport on stairways.

- **Plugged Mains Cable**
  Cable replacement is quick and easy, if required.

(*Ready to use (Machine + Kit))
36V cordless vacuum innovation presents performance, simplicity, convenience and total freedom... any time... any where.

There are many occasions when cordless professional cleaning is the most simple solution in difficult circumstances, avoiding any conflict with the public and concerns in complying with increasing issues of Health and Safety and increasing regulations in such applications as the cleaning of aircraft.

- **36V Battery Pack**
  Exclusive lithium polymer 36V battery pack.

- **Charging Station**
  Off-board charger keeps you cleaning for longer.

- **Cleaning Choice**
  Three models to suit all professional cleaning applications.

- **LED Charge Indicator**
  Leaves nothing to chance you’ll know exactly how much charge you have.

- **2 Speed Selection**
  Select the power you need when you need it.

- **TriTex Filtration System**
  Improves filtration, cleanliness and capacity.

- **HepaFlo**
  Easy to change high efficiency HepaFlo bags.

Quick and easy battery change
SteelTop NVQ200, NVQ370, NVQ380

The “Steel Top” originals are an essential part of our history but, at the same time, have established themselves in a whole range of applications to be the quality and performance standards against which we will be judged for years to come.

- **Built to Last**
  All steel deep-drawn power head provides a structure of exceptional strength.

- **Noise Reduction**
  Patented Microtec noise reduction system.

- **Professional and Powerful**
  Longlife professional TwinFlo motor.

- **HepaFlo**
  Easy to change high efficiency HepaFlo bags.

- **TriTex Filtration System**
  Improve filtration, cleanliness and capacity.

- **Nucable System**
  Quick and simple cable replacement, saving on expensive repairs due to damaged cables.

- **Professional Accessory Kit**
  Accessory kit AS1 incorporates a stainless steel tube set.

HepaFlo bags, clean to use and easy to empty

*Ready to use (Machine + Kit)*
The all steel construction of today's NQS models is where the Numatic story started.

- **Professional Accessory Kit**
  Accessory kit AS1 incorporates all that is needed for the professional cleaner.
- **Nucable System**
  Nucable allows quick and simple cable replacement, saving on expensive repairs due to damaged cables.
- **TriTex Filtration System**
  Improve filtration, cleanliness and capacity.
- **HepaFlo**
  Easy to change high efficiency HepaFlo bags.
- **B Class**
  Energy efficient, A rated.
- **All Steel Construction**
  Tough and hard wearing, built for years of professional use.

Secure and comfortable harness

When it comes to congested environments there can be no doubt that the practical features of the RSV (RucSac Vac) brings with it great advances in convenience cleaning.

The RSV produces vastly improved results by virtue of the old adage “the right machine for the right job”. In many countries RucSac cleaning has become commonplace with substantial improvements in cost effective operation.

The tremendous advantage of a cordless RucSac cleaner will be more than obvious, NO CABLE, allowing it to be used in numerous difficult situations with exceptional results.

Perfect for use in stairways, congested areas, busy pedestrian zones, cleaning aircraft, buses, even cinemas.

- **User Comfort**
  Convenience and safety with an ergonomically designed comfortable harness.

- **36V Battery Pack**
  Exclusive lithium polymer 36V battery pack.

- **Charging Station**
  Universal charger keeps you cleaning for longer.

- **LCD Charge Indicator**
  Leaves nothing to chance you’ll know exactly how much charge you have.

  Easy to change high efficiency HepaFlo bags.

- **User Comfort**
  Convenience and safety with an ergonomically designed comfortable harness.

- **High Efficiency Filtration**
  Extra large filter system and 3-stage HepaFlo disposable dust bags.

- **Professional Accessory Kit**
  Accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces.

- **A Class**
  Energy efficient, A rated.

(See page 40 for full accessories)
SimpliVac Numatic
MicroFilter MFQ370, CRQ370

Hospitals, clinics, clean rooms... high performance, Hepa filtration and confidence, that's what it's all about.

MicroFilter models are certified to an exceptional 99.95% efficiency with every one tested and certified before leaving the factory. Where Clean Room Class 100 standards are required the CRQ370 has been designed to provide operational performance of 100% down to a particle size of 0.1µm.

- High Efficiency Filtration
  Tested to EN1822 standard.
- Professional Specification
  Steel motor head construction.
- HepaFlo Bags
  Uses standard HepaFlo bags, clean and easy to empty.

CRQ370

The PPH has all the many advanced features of the ProVac model range with an additional Hepa filter module achieving an exceptional H13 EN1822 standard.

- Professional Accessory Kit
  Accessory kit incorporates stainless steel tube set.
- Plugged Rewind System
  Quick and simple cable replacement saving on expensive repairs and down-time due to damaged cables.
- HEPA MicroFilter Module
  The compact HEPA module design is incorporated into the head design resulting in efficient filtration, use and storage.
- HepaFlo
  Easy to change high efficiency HepaFlo bags.
- A Class
  Energy efficient, A rated.

**H13 Hepa Filtration module (EN1822)**

Easy replacement plugged cable system

CRQ Specialist vacuum does not require Eco rating. *Ready to use (Machine + Kit)
High efficiency ProFlo dry floor tool

EcoDry NVQ570, NVDQ570

Power and performance in industrial terms needs to be matched to longlife, reliability and user satisfaction.

The NVQ Industrial range uses Structofoam construction, it doesn’t dent, crack or deteriorate but, equally, has no weight penalty. The 570 provides an easily transported industrial vacuum with plenty of capacity for most applications and a choice of one or two motor specifications.

- AirFlo Design
  Directs efficient movement of air through the vacuum increasing performance by more than 30% throughout the operating range.

- Structofoam Construction
  Heavy duty Structofoam used in both head and body construction, built to endure years of hard industrial use.

- Nucable System
  Power cables can be changed without the need for an electrical engineer.

- On the Move
  570 models are fitted with professional fully directional castors whilst the 900’s are also equipped with large rear wheels, both providing excellent mobility even in the most demanding applications.

EcoDry NVQ900, NVDQ900

With excellent manoeuvrability the 900 is ideal for numerous trades where it must frequently be moved from place to place while still requiring a large and generous working capacity.

- AirFlo Design
  Directs efficient movement of air through the vacuum increasing performance by more than 30% throughout the operating range.

- Structofoam Construction
  Heavy duty Structofoam used in both head and body construction, built to endure years of hard industrial use.

- Nucable System
  Power cables can be changed without the need for an electrical engineer.

- On the Move
  570 models are fitted with professional fully directional castors whilst the 900’s are also equipped with large rear wheels, both providing excellent mobility even in the most demanding applications.

HepaFlo dust bag and AirFlo system

Nucable easy replacement plugged cable system

Large rear wheels providing excellent mobility

High efficiency ProFlo dry floor tool
CombiVac CV570, CVD570, CV900, CVD900

The unique filter system in the CombiVac enables the user to switch from dry to wet pick-up without the need to change filters or kits.

The tough Structofoam construction doesn’t dent, scratch or deteriorate but is light in weight and resists all standard cleaning chemicals.

- Wet and Dry Pick-up
  No need to change kit or filter.
- Washable Filter System
  High efficiency dual washable filter system.
- High Quality Accessories
  BS8 kit with stainless steel tube set.
- Structofoam Construction
  Heavy duty Structofoam used in both head and body construction, built to endure years of hard industrial use.
- Convenient Emptying
  Emptying couldn’t be easier using the unique tipping handle (900 model).

*Ready to use (Machine + Kit)
The WV370 and WV380 are by design, wet or dry vacuum cleaners that perform totally without compromise in either mode.

We know full well that when you want to use as a dry machine, performance must be as good as a dry-only machine, big filters and the option of giant HepaFlo disposable dust bags ensure a high standard of operation. Similarly, when required for wet work, a quick switch of the dry filter for the wet float valve and a change of floor nozzle will give you equally professional performance and a clean, dry floor at the end of it all.

- **Wet or Dry**
  Professional results in either mode, accessories provided for both wet and dry use.

- **Compact**
  Easy to store compact design, always close to hand when needed.

- **Tough Professional Construction**
  For especially tough conditions the WV380 Structofoam drum design is ready for anything professional use will throw at it.

The WV470 provides a larger alternative to the 370/380 series, with twice the capacity but to the same high performance standard be it wet or dry.

The folding handle design allows easy movement when in use, whilst being compact to store. Large rear wheels provide stability and make light work of obstacles during transit.

The accessory kit provides tools for both wet and dry operation with lightweight aluminium tube set as standard.

- **Wet or Dry**
  Professional results in either mode. Accessories provided for both wet and dry use.

- **Compact & Capable**
  Compact with a small foot-print the 470 provides an impressive 20L Wet / 27L Dry capacity.

- **Folding Handle**
  The transit handle makes life easy when you need it and folds away when you don’t... simple!

- **On the Move**
  Not everywhere will be flat and smooth, large rear wheels and directional castors make transporting the 470 easy, even when full.

- **Easy Emptying**
  Fitted with easy empty handle providing simple and clean emptying (WV470).

*Ready to use (Machine + Kit)*
The mid range EcoWet 570 and 900 designs are classics in every respect both in design and manufacture.

EcoWets have now been raised to our full 38mm (1½”) standard, providing performance enhancements allowing single motor models to perform to improved standards. Both models use complete Structofoam construction, an exceptionally tough compound that doesn’t dent, scratch or deteriorate and yet it is lightweight and resists all standard cleaning chemicals.

- **Wet or Dry**
  Professional results in either mode, professional accessories provided for both wet and dry use.

- **Structofoam Construction**
  Heavy duty Structofoam used in both head and body construction.

- **Nucable System**
  Power cable can be replaced without the need for an electrical engineer.

- **Easy Empting**
  Both models are quick, clean and simple to empty. The 900’s are equipped with a unique tipper handle.

- **Professional and Powerful**
  Longlife professional TwinFlo bypass motor.

(Vegetable mode) (Vegetable mode) (Vegetable mode) (Vegetable mode)
The “1800” big capacity models are simply unsurpassed within their field.

The Structofoam construction is unequalled, a selection of one or two motor options, 38mm (1½") accessories in stainless steel. Simply, as good as you can get.

The power head is fully Structofoam by design, incorporating TwinFlo 2-stage bypass motors and the Nucable plugged replaceable cable facility is an added feature.

- **Structofoam Construction**
  Heavy duty Structofoam used in both head and body construction.

- **Nucable System**
  Power cables can be changed without the need for an electrical engineer.

- **Auto Emptying**
  Auto pump models provide for continuous operation pumping out literally as much water as you can take in.

- **Professional and Powerful**
  Longlife professional TwinFlo bypass motor.

*AP = Auto pump (500W)  *Ready to use (Machine + Kit)
The 2000 wet series is the epitome of heavy duty, Duplex professional machines that have been giving users their best performance for more than 20 years.

Like the full range of wets, the 2000 series has been enhanced by increased efficiency in terms of wet pick-up, working better and quicker than ever before. You will find the 2000’s trundling over building sites and used by fire crews in fire and flood damage applications. In fact, wherever there is lots of water to be collected, or for continuous pumping operations, there you will find the 2000 auto pump models, and you literally will not find better.

- On the Move
  A heavy duty steel external chassis makes light work of transportation even when at the full capacity of 70 litres.

- Auto Emptying
  Auto pump models provide for continuous operation pumping out literally as much water as you can take in.

- Professional and Powerful
  Longlife professional TwinFlo bypass motors.

- Structofoam
  Heavy duty Structofoam head construction, built for years of hard use.

- Industrial Accessories
  Full 38mm (1½”) with long hoses and stainless steel tube set.

*AP= Auto pump (500W) SH= Dump hose  *Ready to use (Machine + Kit)
24V Freedom for 101 reasons... and no two of these are the same!

The whole cordless concept of this battery powered machine, is to provide convenience where accessibility to a normal mains supply is simply not possible, or not acceptable for reasons of safety or logistics.

The machines’ specifications from top to bottom are without doubt to the highest of standards, with a choice of Simplex 1 motor or Duplex 2 motor models.

The stainless steel construction incorporates twin 56 amp / hour gel batteries and their own dedicated charger system. The container is totally resistant to all forms of deterioration, ensuring a longlife design with outstanding appearance and performance.

A formidable cordless package that will go anywhere, any time.

- **Choice of Motor**
  - Simplex 1 motor power head (WVB750)
  - Duplex 2 motor power head (WVDB750)

- **31L Dry / 22L Wet Capacity**
  Professional results in either mode, professional accessories provided for both wet and dry use.

- **High Performance Gel Batteries**
  2.5 hours of runtime with the Simplex model, and for extra performance the Duplex version with 1.25 hours of running time between charges.

- **On-board Charger**
  Twin 56 amp / hour gel batteries and their own dedicated charger system.

- **Large Transit Wheels**
  Not everywhere will be flat and smooth, large rear wheels and directional castors make transporting the 750 easy, even when full.

- **Detachable Container**
  The stainless steel container is totally resistant to all forms of deterioration, ensuring a longlife design with outstanding appearance and performance.

- **Professional Accessory Set**
  A tool for every job, full accessory kit BS8 with stainless steel tube set.

*Ready to use (Machine + Kit)
There really is nothing quite so useful as a small, compact CleanTec machine that provides the combination of a PowerFlo liquid pump supply and efficient wet pick-up facility... all incorporated in one unit.

Mainly used in the cleaning of carpets and upholstery these machines can be equally effective on hard floors where there is a need for localised scrubbing and wet pick-up operation.
CleanTec CT570, CTD570

The 570 series has become the most popular contractors’ extraction cleaner by choice... and this is not by chance, but by design.

The Structofoam 570 is available in both one and two motored models built to the full TwinFlo specification and incorporating our Powerflo’ pump and quick connect liquid system. The containers are also full Structofoam incorporating our unique “tank within a tank” system to maintain a compact and usable size.

- **All Purpose 4 in 1** Wet, Spray extraction carpet cleaning and upholstery cleaning / car valeting.
- **Structofoam Construction** Heavy duty Structofoam used in both head and body construction.
- **Nucable System** Power cables can be changed without the need for an electrical engineer.
- **Professional and Powerful** Longlife professional TwinFlo bypass motors.
- **Tank within a Tank** Simple, clean and efficient. This unique design allows an easy to fill and quick to change system.
- **Full Accessory Kit** Supplied with carpet, upholstery cleaning and wet accessories.

CleanTec CT900, CTD900

The 900 is our largest machine to incorporate the compact “tank within a tank” design.

The 900’s come in two models, one-motored or two-motored, both incorporating our TwinFlo bypass motors and integrated Powerflo’ pump system. The pump system injects the cleaning solution deep into the carpets in a continuous deep cleaning cycle and these bigger machines will cover an area more than three times that of our smaller machines, without the need for emptying, this is especially important in office blocks and high rise apartment blocks.

- **All Purpose 4 in 1** Wet, Spray extraction carpet cleaning and upholstery cleaning / car valeting.
- **Tank Within a Tank** Simple, clean and efficient. This unique design allows an easy to fill and quick to change system.
- **Structofoam Construction** Heavy duty Structofoam used in both head and body construction.
- **Easy to Empty** The unique tipper system incorporated within the chassis design allows for the machine to be emptied in floor drains or WC’s where available.
- **On the Move** Large rear wheels provide stability during transportation.
- **Nucable System** Power cables can be changed without the need for an electrical engineer.
- **Full Accessory Kit** Supplied with carpet, upholstery cleaning and wet accessories.

The CleanTec NHL15 has been designed from the ground up to reflect the need for quick and effective carpet care with the minimum of preparation and effort.

Almost every carpet cleaning task is made up of two areas, heavily soiled high traffic areas and a much larger area of carpet only lightly soiled.

The Hi-Lo system allows you to select the Hi pressure for heavily soiled areas and the Lo pressure for lesser soiled areas. This gives you the control you need reducing carpet wetting in areas where carpets need less cleaning penetration.

- **Let the Weight do the Work**
  Our TriJet carpet extraction head is of full aluminium construction inclusive of our EasyFlo movement system to ensure professional performance.

- **Easy to Empty**
  Two separate emptying systems, full removal of the dirty water tank or, where this is not practical, an integrated dump hose.

- **Pressure When you Need it**
  Hi-Lo system allows pressure selection between Hi 4 Bar (60 psi) and Lo pressure 2 Bar (30 psi).

- **On the Move**
  4 Wheel mobility and convenient handle provide total ease of transportation.
